

## Rationale and learning objectives:

The therapeutic management of uro-oncological patients today requires the interaction of a multidisciplinary team prepared to offer the best therapeutic and follow-up pathway according to the standard of care. The challenges posed by modernity and technological advancements demand a deep understanding of the latest developments in surgical and medical therapies in order to meet the need for surgical radicality while maintaining optimal functional outcomes. In this context, conservative and minimally invasive surgical techniques, supported by technological innovations in recent years, are increasingly being applied in the treatment of both prostate and kidney cancers. Therefore, a multidisciplinary team must be capable of optimally managing the oncological pathology at all its stages, ensuring that the best patient-tailored strategy is provided, whether for localized cancer, high-risk cancer progression, or metastatic cancer.

ECM Event No.  
Field Training (FSC)  
Target Audience: Urologists  
Regional Provider No. 514  
Fondazione Istituto G. Giglio di Cefalù

Fondazione Istituto G Giglio  
CEFALU'  
May 22-23 2025

## CEFALU' CAMP FOR KIDNEY AND PROSTATE CANCER VI EDITION

UPDATE ON MEDICAL ADVANCEMENT, PERSONALIZED MEDICINE,  
INNOVATIVE THERAPIES, MINIMALLY INVASIVE TECHNIQUES IN  
URO-ONCOLOGIC CANCERS AND LIVE SURGERY

SCIENTIFIC DIRECTORS  
FABIO CALABRÒ  
FRANCESCO CURTO  
GIUSEPPE SIMONE

May 22, 13:00 -19:00

Theoretical section

Session 1

**Kidney Cancer: Conservative Surgical Approach for Localized Tumors and Surgical Indications in de novo Metastatic Disease**

Andrea Liaci: Conservative Surgical Approaches in Urothelial Neoplasms of the Upper Urinary Tract and Follow-up

Sonia Maria Agiato: Conservative Surgical Approaches for Solid Renal Masses

Piero Mannone: Augmented Reality and 3D Models in Robotic Kidney Surgery

Giuseppe Simone: Renal Tumorectomy and Clamp-less Technique: Expectations and Outcomes

Fabio Calabrò: de novo Metastatic RCC: Does Cytoreductive Nephrectomy still offer advantages in the Immuno-Oncology era?

Session 2

**Prostate Cancer: State of the Art in Focal Therapy, Indications and Outcomes of Nerve-Sparing Radical Prostatectomy, and Multidisciplinary Approach to High-Risk Prostate Cancer for Recurrence**

Gianluca Gaudio: Focal Therapy in Localized Prostate Cancer: Rationale, Patient Selection, and State of the Art

Mirko Pinelli: Nerve-Sparing Radical Prostatectomy: Patient Selection, Expectations, and Outcomes

Francesco Curto: Nerve-Sparing Radical Prostatectomy and Santorini Sparing: Technique and Benefits

Massimiliano Spada: Management of High-Risk Patients for Biochemical Recurrence After Radical Prostatectomy

May 23, 08:00 -16:00  
Surgical section – Live Surgery

Screen 1

Off-clamp robot assisted partial nephrectomy  
Surgeon: G. Simone

Extrascapular robot assisted radical prostatectomy  
Surgeon: G. Simone

Off-clamp robot assisted partial nephrectomy complex tumor  
Surgeon: M. Di Dio

Screen 2

Off-clamp laparoscopic partial nephrectomy  
Surgeon: Giuseppe Coraci

Laparoscopic radical nephrectomy  
Surgeon: M. Falsaperla

On-clamp laparoscopic partial nephrectomy  
Surgeon: F. Curto

SCIENTIFIC DIRECTORS

FRANCESCO CURTO, UROLOGIST

FABIO CALABRÒ, UROLOGIST

GIUSEPPE SIMONE, UROLOGIST

LIVE SURGERY

FRANCESCO CURTO, UROLOGIST

GIUSEPPE SIMONE, UROLOGIST

MARIO FALSAPERLA, UROLOGIST

GIUSEPPE CORACI, UROLOGIST

MICHELE DI DIO, UROLOGIST

SPEAKERS

ANDREA LIACI, UROLOGIST

SONIA MARIA AGIATO, UROLOGIST

PIERO MANNONE, UROLOGIST

GIUSEPPE SIMONE, UROLOGIST

FABIO CALABRÒ, UROLOGIST

GIANLUCA GAUDIO, UROLOGIST

MIRKO PINELLI, UROLOGIST

FRANCESCO CURTO, UROLOGIST

MASSIMILIANO SPADA, ONCOLOGIST
